Introduction

At Louisiana Urology, LLC, we are committed to treating and using health information about you responsibly. This Notice of Health Information Practices describes the personal information we collect and how and when we use or disclose that information. It also describes your rights as they relate to your protected health information. This notice is effective April 16, 2003 and applies to all protected health information as defined by federal regulations.

Understanding Your Health Record/Information

Each time you visit Louisiana Urology, LLC, a record of your visit is made. Typically, this record contains your symptoms, examination and test results, diagnoses, treatment and a plan for future care or treatment. This information, often referred to as your health or medical record, serves as a:

- Basis for planning your care and treatment,
- Means of communication among many health professionals who contribute to your care,
- Legal document describing the care you received,

- A tool in educating health professionals,
- A source of information for public health officials charged with improving the health of this state and the nation,
- A source of data for our planning and marketing,
- A tool with which we can assess and continually work to improve the care we render and the outcomes we achieve.

Understanding what is in your record and how your health information is used helps you to: ensure its accuracy, better understand who, what, when, where and why others may access your health information, and make more informed decisions when authorizing disclosure to others.

Although your health record is the physical property of Louisiana Urology, LLC, the information belongs to you. You have the right to:

We will also discontinue using or disclosing your health information after we have received a written revocation of the authorization according to the procedures included in this authorization.

Examples of Disclosures for Treatment, Payment and Health Operations

We will use your health information for treatment.

For example: Information obtained by a nurse, physician or other member of your health care team will be recorded in your record and used to determine the course of treatment that should work best for you. Your physician will document in your record his or her expectations of the members of your health care team. Members of your health care team will then record the action they took and their observations. In that way, the physician will know how you are responding to treatment.

We will also provide your physician or a subsequent health care provider with copies of various reports that should assist him or her in treating you once you are discharged from our care.

We will use health information for payment.

For example: A bill may be sent to you or a third-party payer. The information on or accompanying the bill may include information that identifies you, as well as your diagnosis, procedures and supplies used.

We will use your health information for regular health operations.

For example: Members of the medical staff, the risk or quality improvement manager, or members of the quality improvement team may use information in your health record to assess the care and outcomes in your case and others like it. This information will then be used in an effort to continually improve the quality and effectiveness of the healthcare and service we provide.

Business associates: There are some services provided in our organization through contacts with business associates. Examples include physician services in the emergency department, radiology and certain laboratory tests. When these services are contracted, we may disclose your health information to our business associate so that they can perform the job we have asked them to do and bill you or your third-party payer for services rendered. To protect your health information, however, we require the business associates to appropriately safeguard your information.

Directory: Unless you notify us that you object, we will use your name, location in the facility, general condition and religious affiliation for directory purposes. This information may be provided to members of the clergy and, except for religious affiliation, to other people who ask for you by name.

FOR PATIENTS WITH INSURANCE:

We are contracted with most insurance companies, but please check with your insurer to make sure that we are a participating provider for your plan. If so, we will file your claim for you if proper proof of coverage is provided to us at the time of your visit. Your insurance coverage is a contract between you and your insurer and, although we will make every reasonable effort to assist you in getting your claim paid, any charges incurred are ultimately your responsibility. Occasionally, your insurer may send you a questionnaire that must be answered before they will process your claim. Please respond to any correspondence promptly in order to expedite your claim payment.

- ❖ **Copayments:** Copayments are due at the time of service and are collected upon arrival.
- ❖ **Deductibles and Coinsurance:** Deductibles and coinsurance are due at the time of service and are collected upon arrival. We will estimate these amounts as closely as possible. Should an overpayment occur, it will be refunded to you once your insurance has paid your claim.
- ❖ **Outstanding Balances:** If you have an outstanding balance at the time of your appointment, please be prepared to pay it when you check in.

Wellness Visits: We **do not** perform the **Medicare Wellness Visit**. If you have another insurer that allows you to use your yearly prostate exam as your annual wellness visit, please let the doctor know that you are here for your wellness exam so that we can file your claim properly. We can only file for a wellness exam when the patient has no symptoms and is only being seen for their routine prostate exam and PSA. If you are having symptoms or chose to discuss other medical problems during your visit, your insurer will process your claim with the applicable copayment or deductible.

FOR PRIVATE PAY PATIENTS:

Payment is required at the time of service. For new patients, please be prepared to pay \$200 for your first appointment. If additional testing or imaging is performed, this amount may be more.

FORMS OF PAYMENT ACCEPTED:

- ❖ **Cash or Money Order**
- ❖ **Checks**
- ❖ **Credit Cards:** Visa, Mastercard, Discover and American Express
- ❖ **Health Savings/Reimbursement Credit Cards:** If you have an HSA or HRA card from one of the above vendors, we can accept this just like a regular credit card as long as there are funds in the account for processing.
- ❖ **Care Credit**

CARE CREDIT INFORMATION:

Because we are seeing more and more patients with high deductible insurance plans, we now offer short-term financing for up to six months with no interest through Care Credit. Please ask to speak to a patient account representative in our office if you would like more information about this program.

Thank you for entrusting us with your medical care. Please let us know if you have any questions or concerns.

I have read and understand the above financial policy:

BOTHERSOME SCORE DUE TO URINARY SYMPTOMS

	Delighted	Pleased	Mostly	Mixed	Mostly	Unhappy	Terrible
BOTHERSOME OF URINARY SYMPTOMS: How would you feel if you had to live with your urinary condition the way it is now, no better, no worse, for the rest of your life?	0	1	2	3	4	5	6

The International Prostate Symptom Score (I-PSS) is based on the answers to 7 questions concerning urinary symptoms and 1 question concerning the effect of symptoms. Each question concerning urinary symptoms allows the patient to choose 1 of 6 answers indicating increasing severity of the particular symptom. The answers are assigned points from 0 to 5. The total score can therefore range from 0 to 35 (asymptomatic to very symptomatic).

The first 7 questions of the I-PSS are identical to the questions appearing on the American Urological Association (AUA) symptom Index, which currently categorizes symptoms as follows: Mild - (symptoms score less than or equal to 7), Moderate - (symptom score range 8-19), Severe - (symptom score range 20-35).

The International Scientific Committee (SCI), under the patronage of the World Health Organization (WHO) and the International Union Against Cancer (UICC), recommends the use of the additional question to begin a discussion with patients about the effect of symptoms on their lives. The answers to this question range from "delighted" to "terrible" or 0 to 6.
